

Welcome to Bin2Bean Training series!

**Module 9 – EU Programmes & Calls
for Soil Health**

Co-funded by
the European Union

Healthy soils = food security, biodiversity & climate resilience

Circular economy = turning waste into resources

Biowaste-to-soil projects can:

- **Reduce** landfill waste
- **Restore** degraded soils
- **Create** sustainable products for agriculture

Mission “A Soil Deal for Europe” – healthy soils by 2030

- **Horizon Europe – Cluster 6:** soil, waste valorisation, circular bioeconomy
- **LIFE Programme:** soil restoration, landfill reduction, pilot projects
- **CBE JU:** bio-based value chains using biowaste
- **CAP / ERDF:** national & regional support for sustainable soil management

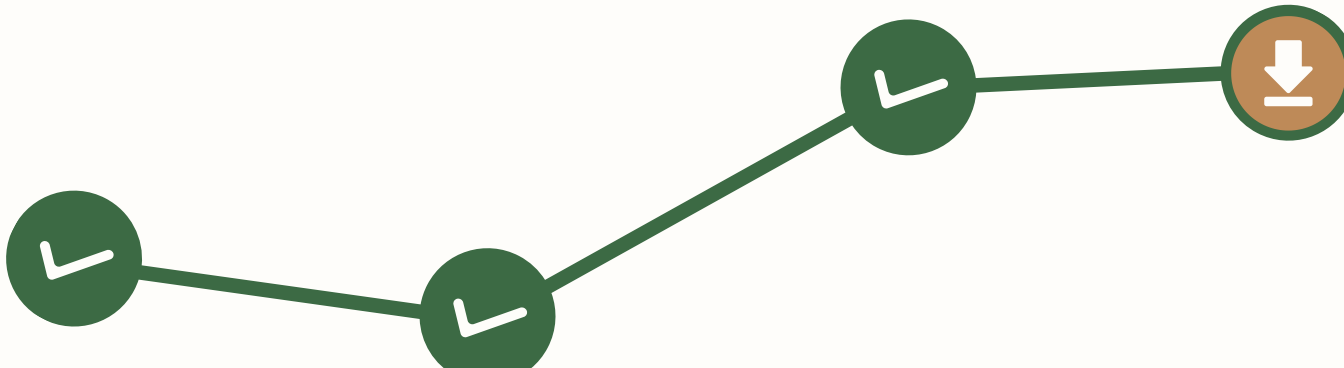

1. **Focus** on expected outcomes and scope
2. **Match** the required TRL
3. **Show** how your project combines environmental impact and economic viability
